Seen in many Grand Designs' houses, now on show at Grand Designs Live

Fisher & Paykel

Stand K61

Fisher & Paykel have brought their world's first products to the UK. At Grand Designs Live you will have to chance to see and feel these innovative appliances:

- DishDrawer®, an ergonomic dishwasher in a drawer;
- CoolDrawer™, a multi-temperature, multi-function cooling drawer;
- Active Smart™ refrigerators;
- multi-function ovens with pre-set temperatures and powerful grills;
- A range of hobs giving you a whole new cooking experience.

Clean

DishDrawer® Wide – entered into the Grand Designs Awards

Why shouldn't cleaning up be as enjoyable as cooking itself? The DishDrawer® range is designed to make life easy. Wide, tall, double and single drawer options allow you to choose the combination that works for your lifestyle. The range can easily be concealed behind kitchen cabinetry to seamlessly blend in with your kitchen and the ergonomic design requires less movement to open, load and close — minimising bending.

Cool

CoolDrawer™ – entered into the Grand Designs Awards

In any kitchen an even temperament as well as temperature is essential. Technology that adjusts to your needs is our focus. The Active Smart™ range of refrigerators continually adjusts the flow of cold air into your fridge and freezer by sensing daily use and climatic conditions, ensuring that an optimum temperature is always maintained to keep food fresh.

Cook

Whether your preference in hobs is gas, induction or electric, all our hobs offer precise, consistent, state-of-the-art control. Our built-in ovens and freestanding cookers are designed with the full range of cooking requirements and temperatures, giving you greater flexibility. The most demanding and creative cook can enjoy cooking like a chef and will be thrilled with the flexibility and control of their new Fisher & Paykel range.

CookSpace, a large multi-function built in oven with rotisserie

Vent

Kitchen inspiration doesn't exist in a vacuum, but simple and responsive extraction is always important. Built to perform, our range hoods effectively capture and eliminate cooking odours, vapour or steam. Each has been designed as the perfect partner products to our hobs and includes sleek black glass with brushed stainless steel to complement any modern kitchen.

Automatic range hoods with capacitive touch controls
