### Standing Tall

Fisher & Paykel launches DishDrawer® Tall, a new design for the world's first dishwasher in a drawer.

Fisher & Paykel has reinvented its revolutionary DishDrawer® with a more spacious design and sleek modern styling.

DishDrawer® Tall has all the benefits of DishDrawer®: ergonomic design, 9 wash programmes including delay start and eco options, key lock, child lock and a flexible racking system.

The Tall racking system allows for larger plates – up to 330mm or 13 inch – and large bowls with its fold-and-slide system. Small cups or tall mugs can easily be accommodated with the height-adjustable racks.

DishDrawer® Tall is a single dishwasher, fits 6 place settings, and is available in integrated or sleek EZKleen stainless steel. DishDrawer® Tall is 477mm high and can be easily integrated in modern kitchen designs.

DishDrawer® Tall is also available in a unique integrated format for long door design, allowing for integration into kitchens without interruption of lines.
